

CONDITIONAL USE PERMIT APPLICATION TYPE II

OFFICE USE ONLY Date Received:
FILE NO.
120 DAY EXPIRATION

Purpose:

Some types of land use activities may not be compatible with existing or planned improvements in an area and for this reason, the County needs to exercise discretion in deciding the matter. This is accomplished by the Conditional Use Permit (CUP), a land use decision process that allows the County to determine if the proposed use is feasible for the surrounding lands. Since the Conditional Use Permit is a discretionary matter, it may be in your best interest to speak with a private land use planner, surveyor or title company for guidance in preparing the application materials.

PLOT PLAN INSTRUCTIONS

Purpose:

The plot plan is an important aspect of development as it provides a visual evaluation of the project and it is used to determine the impact of multiple factors on the environment and the surrounding neighborhood. The plot plan is part of the official record that will be associated with a property and for this reason, the quality of the document is essential.

Size Requirements For Plot Map:

The map can be drawn on white paper which is either 8 1/2 x 11 or 8 1/2 x 14 inches in size. If another size is used, the applicant must include one copy of 8 1/2 x 11 inches as this will allow the drawing to be included in the Lake County record package.

Helpful Hints:

1. Use the Internet to collect preliminary information. <http://www.ormap.org/disclaimer.cfm> will allow you to find the tax assessment map with dimensions of your property. The Google Earth program will allow you to access an aerial photograph of your property. Print off copies of the Internet materials as these will be helpful when composing your plot plan. Visit your local library for Internet access.

2. Visit the site. Bring a clipboard, paper, pencil, camera and tape measure to document the activities of the parcel. Look at the ground level, trees, rock outcroppings or areas that might be susceptible to flooding. Observe and record the location of existing structures, roads, wells, septic and nearest electrical service. Measure and record the distances between the property lines and the existing and proposed structures and facilities.

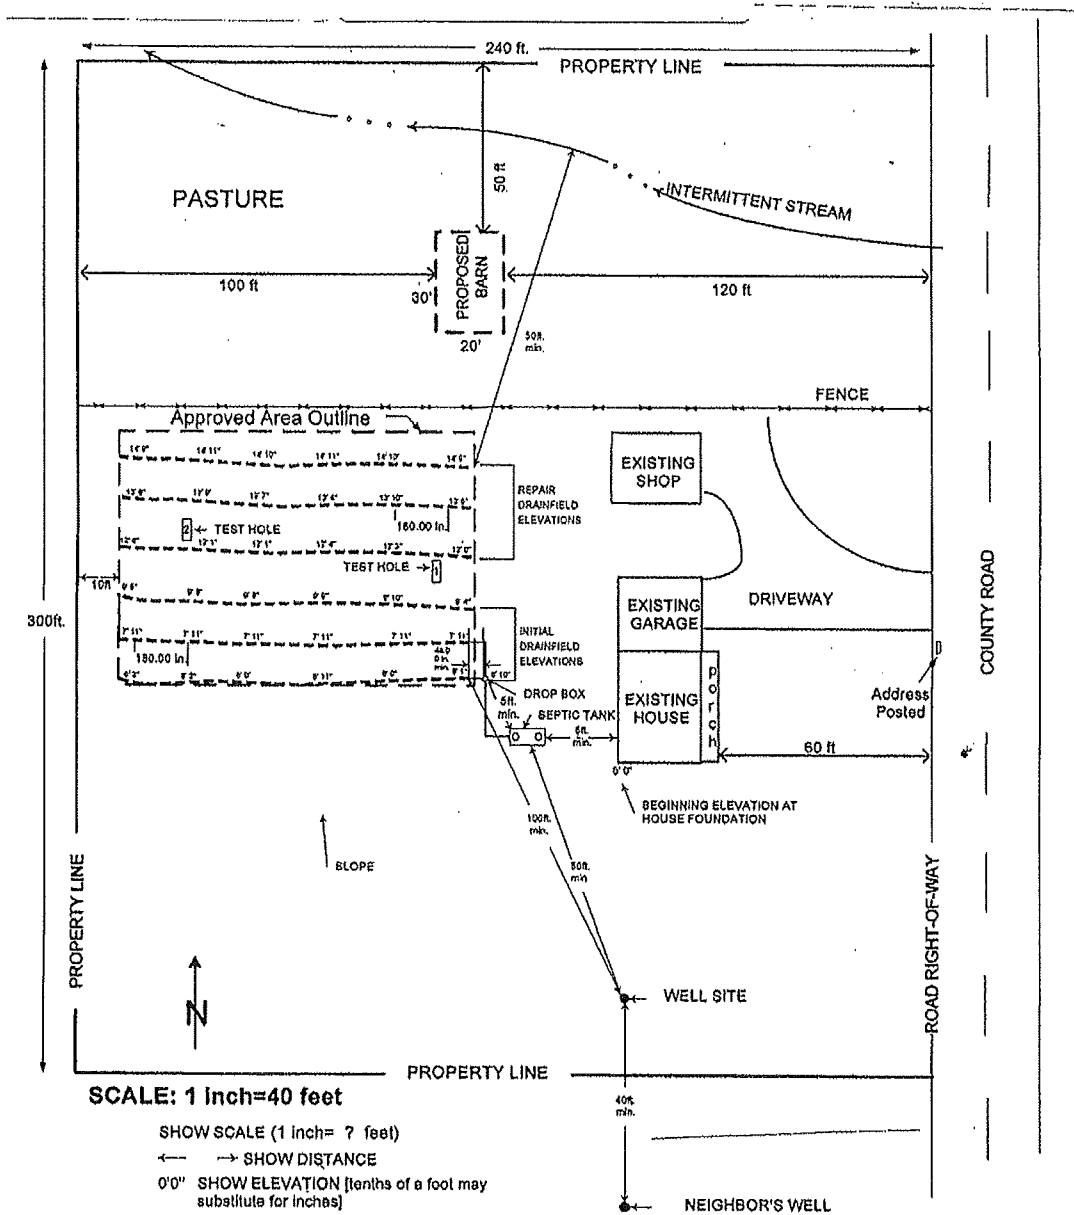

Prepare the plot plan:

1. A plot plan template is attached with this form. Using a standard ruler, determine which scale will work best for your development. You may decide that 1 inch on the ruler will best represent 50 feet on the paper or for larger projects 1 inch to 100 feet.

2. Add the following items to the plan:
- The shape and dimensions of your property must be accurately drawn on solid black lines. Label adjacent roads.
 - Label the map with Map Township, Range, Section and Taxlot Number, North Arrow, Scale and Date.
 - Identify the location of existing structures and facilities. Used dashed lines for new construction. Write in setback distances.
 - Show the location and direction of all water courses and drainage ways (such as intermittent streams, creeks, irrigation canals, etc) as well as the 100-year floodplain, if applicable.
 - Identify the location of sewage disposal systems, well or public water connections, electrical service.
 - Identify the location of the address sign. If an address has not been assigned, show where sign will be located.
